Hearing Itinerant Services

Dana Krella, DHH teacher, works with a student to create an edible model of the ear. As the pair built the model, they had a rich discussion on the parts of the ear and how sound moves through the ear. The student developed self-advocacy skills based on a deeper focus and discussion on the cochlea, the specific part of the ear from which this student’s hearing impairment originates.

Parents as Teachers

Carol Fate delivered a fantastic presentation at the Parents as Teachers National Conference in Baltimore, MD. The title of the presentation was, “When Cultures Collide: Using Reflective Supervision to Support Challenging Conversations on Tricky Parenting Topics “. The presentation was very well attended and addressed an emerging need in home visitation services.
