WHO EXHIBITS EXECUTIVE DYSFUNCTION?

The first image shows a cartoon character with a large, chaotic brain filled with gears and symbols, representing mental clutter or disorganization. The second image shows a boy sitting at a desk with a clock in the background, looking thoughtful or perhaps struggling with time management. The third image shows a boy in a classroom setting, looking thoughtful with his hand on his chin, with a teacher standing in the background.

impulse control/self-regulation

The image features a small cartoon character of a girl with a red bow in her hair, standing next to the text 'impulse control/self-regulation'.

AUTISM IN GIRLS

Girls with autism may present differently and are often undiagnosed.

Mask their symptoms—may contribute to or co-occur with other disorders such as OCD, eating disorders

More socially motivated

Less likely to show restriction of interest or repetitive behaviors

CHOICES

01	02	03
<p>1. CASE study—pick a kid with EF, identify the areas of concern, problem solve some solutions/strategies that can be—reasonably!—put in place</p>	<p>2. GET READY DO DONE, Google a template that you like, prep some projects to take back with you,</p>	<p>3. LIST OF STRATEGIES: What strategies do you think will work for you, what else HAS worked for you, what are you willing to share with the group</p>
